

Student Portal

The steps for course selection are as follows:

1. Go to <https://www.myeducation.gov.bc.ca/aspn/logon.do>
2. Your login is first initial last name51
3. Your temp pw is boundary. (You will be prompted to change it upon login). Write it down somewhere safe. Example. Wayne Gretzky would be: wgretzky51 pw: boundary.
4. Note: If you have come to us from another school district your login will likely be different. Login stays with the school even if you change districts. Also, if you have a hyphenated last name OR if someone in our school or district has the same initials you may have been issued a special by the computer system. Just message Mr. Macfarlane for help.
5. Once you are logged in successfully. click on Myinfo. Then look for requests on the side tab at the bottom. Click on it and it will open up course selections. Click on each heading and select. Remember to make sure you have 8 courses selected. Next years grade 12's you may include your study block as a choice. Grade 12's taking Fire Suppression you may have more than 8 courses. This is good.
6. "Post" is the same as saving your work in MyED. So when you have chosen your courses, "Post" in order to save.
